Location: Semarang / Boyolali, Central Java, Indonesia

Portfolio: lukmanweb.github.io

Results-driven **Full-Stack Web Developer** with 5+ years of experience designing, building, and deploying modern, high-converting websites and web applications. Specialist in crafting responsive Front-End interfaces (HTML5, CSS3, JavaScript, React, Vue, Next.js) and robust Back-End systems (Node.js, PHP, REST APIs). Proven track record of delivering 20+ production-ready web solutions for SMEs, government agencies, e-commerce, and SaaS platforms with 100% client satisfaction.

PROFESSIONAL EXPERIENCE & PROJECTS

Lead Web Developer & Founder

2021 – Present

LukmanWeb Digital Solutions (lukmanweb.github.io)

- Architected and deployed 20+ custom web platforms including E-Commerce, Government Portals, and SaaS micro-sites.
- Optimized web performance and PageSpeed scores, reducing average page load time under 1.5 seconds.
- Implemented Technical SEO best practices, structured JSON-LD schemas, and Google Analytics conversion tracking.

Featured Client Projects Showcase

Selected Work

- Portal Resmi Pemprov Kaltim:** Built a modern government portal with interactive search, 100+ digital public services directory, and news media center.
- PT. Surya Berkah Sejagad:** Developed heavy equipment rental platform with real-time rental cost estimator calculator and dual dark/light UI mode.
- PunyaLink.id Bio Link SaaS:** Designed an interactive micro-site generator platform with custom WhatsApp checkout integration and live visitor analytics.
- Java Laundry Online Booking:** Created automated pickup/delivery booking system integrated directly with WhatsApp API and Google Maps Reviews.
- Omah Wet Gede Garden & Resto:** Built nature culinary tourism landing page with digital QR menu catalog and WhatsApp reservation system.

KEY OFFERINGS FOR UPWORK CLIENTS

- Custom Web Development:** End-to-end frontend and backend web development.
- Figma to Pixel-Perfect Code:** Transforming UI designs into clean, responsive HTML/CSS/JS.
- API & WhatsApp Integration:** Direct WhatsApp order dispatch, payment gateways, and maps.
- Website Optimization:** Speed optimization, Mobile-First responsiveness, and SEO indexing.
